## **DIRECTIONS FOR ADDING A 4" HANGING SLEEVE TO A FINISHED QUILT**

1. Fabric for the hanging sleeve can be the same fabric used for the quilt back, muslin or whatever the quilter chooses.
2. Cut a piece of fabric the width of your quilt x 9" long.
3. Hem the 9" ends of the fabric strip by folding under a 1/2", ironing, then folding and ironing again. Sew close to the edge of the hem.
4. Fold the fabric in half lengthwise, wrong sides together, and sew the length of the fabric with a 1/2" seam allowance to create a sleeve.
5. Center the sleeve's lengthwise seam facing the quilt back and pin the top of the sleeve approximately 1" below the binding. Allow for a slight outward pucker in the sleeve when pinning the bottom edge to the quilt back. This extra fullness on the sleeve will accommodate the rod and prevent a bulge on the front of the quilt when the quilt is hung
6. Blind stitch the top edge of the sleeve to the quilt back. To reduce the pull on the quilt back fabric, catch some of the batting in the stitches. Avoid stitching through the quilt top.
7. Blind stitch the bottom edge of the sleeve to the quilt back.
8. The sleeve may also be sewn on between the quilt back and binding when the binding is sewn on. It may also be pinned to the back of the quilt. However, if the sleeve is pinned, the weight of the hanging quilt could cause the pins to create holes in the quilt backing. The Elk Grove Quilt Guild will not be liable for any damage caused by the pins used to attach the sleeve.
