

# DRESDEN CLOCK

February 18, 2023

9:00 a.m. setup / 9:30 a.m. class

Kathy Sansone, Instructor

## Supplies:

- A 10" (or your choice of size) of a stretched canvas board
- 3 piece clock kit which includes a 1/4" Quartz Clock Movement, clock hands, and self-adhesive numbers (available at Joann's or Hobby Lobby)
- Fat Quarter or at least a 14" square of fabric for the background plus scraps if you want to add a border.
- Batting cut to the size of the canvas board
- 1 1/2 yard of ribbon to cover the back of the board edges

## Construction:

Decide on the type/size of block you want to make. My block center is about 8 1/2". I added 3" of border that allowed me to wrap it around to the back of the frame.

## Homework:

Come to class with your completed block. We will attach your block to your board and add the clock parts.
